You may qualify for PG&E's Energy Savings Assistance Program which is an energy efficiency program for income-qualified residential customers.

Important definitions

Rotating outage blocks are subject to change without advance notice due to operational conditions.

Tier 1/Baseline allowance: Some residential rates are given a Tier 1/Baseline allowance - a CPUC approved percentage of average customer usage during summer and winter months. Your Tier 1/Baseline allowance provides for basic needs at an affordable price and encourages conservation. Your allowance is assigned based on the climate where you live, the season and your heat source. As you use more energy, you pay more for usage. Any usage over your baseline allowance will be charged at a higher price.

High Usage: An increased price per kWh whenever electricity usage exceeds four times the Baseline Allowance (Tier 1) in a billing period. This charge does not apply to Time-of-Use rate plans.

"PG&E" refers to Pacific Gas and Electric Company, a subsidiary of PG&E Corporation. © 2021 Pacific Gas and Electric Company. All rights reserved.

Please do not mark in box. For system use only.

Wildfire Fund Charge: Charge on behalf of the State of California Department of Water Resources (DWR) to fund the California Wildfire Fund. For usage prior to October 1, 2020, this charge included costs related to the 2001 California energy crisis, also collected on behalf of the DWR. These charges belong to DWR, not PG&E.

Power Charge Indifference Adjustment (PCIA): Ensures that non-exempt customers under PG&E's GT and ECR rate schedules or who purchase electricity (generation) from non-PG&E suppliers pay their share of generation costs.

Gas Public Purpose Program (PPP) Surcharge. Used to fund state-mandated gas assistance programs for low-income customers, energy efficiency programs, and public-interest research and development.

How Your True-Up is Calculated

Your Year-to-Date (YTD) Total NEM Charges represent the balance of your net usage since the start of your True-Up period. Charges and credits are calculated each month but are not billed until the end of the True-Up period. The State Mandated Non-Bypassable Charges are based on usage (kWh) and are relevant to determine your True-Up amount. Your NEM electric usage charges and credits will be reset to zero at True-Up.

The Minimum Delivery Charge is billed monthly and credited at True-Up if the total NEM Charges Before Taxes or total State Mandated Non-Bypassable Charges are greater than your cumulative Minimum Delivery Charges. Refer to Detail of NEM Charges page for details about the State Mandated Non-Bypassable Charges.

If negative, Energy Charges are not applicable at True-Up.

You may be eligible for Net Surplus Compensation (NSC) at True-Up if your total **Net Usage (kWh)** is negative. Your estimated True-Up NSC would be -\$63.20.

This is your YTD balance. Your total NEM balance will be reconciled on your True-Up statement (**01/2022**).

Total NEM Charges Before Taxes	-\$318.93

Cumulative NEM Balance by Month

Cumulative NEM Balance

Cumulative NEM balance is a running total of your electricity costs and can increase or decrease depending on each month's use and generation. You only pay your Cumulative NEM balance at True-Up.
